Lower residential heat rate for heat pumps

ENERGIZING LIFE: A COMMITMENT THAT GOES BEYOND RELIABILITY

At Kansas City Power & Light, we know you expect electricity to always be there. That is why we've worked hard to build one of the best reliability records in the industry. We also want you to feel comfortable while saving energy and dollars. To help you save, we offer low, eight-month winter space heating rates that are ideally suited for energy-efficient heat pumps.

Save over 35% on your winter electric charges with KCP&L's lower space heat rate and an energy-efficient heat pump

KCP&L Kansas Residential Electric Rate Comparison	Standard Rate 2RS1A	Space Heat Rate 2RS6A
Monthly Customer Charge	\$7.93/mo.	\$7.93/mo.
Summer (May 16 - Sept 15) All kWh/mo.	\$0.07779/mo.	\$0.07779/mo.
Winter (Sept 16 - May 15)		
First 1,000 kWh/mo.	\$0.07026/kWh	\$0.04556/kWh
Over 1,000 kWh/mo.	\$0.06996/kWh	\$0.03416/kWh

Note: The above prices do not include taxes or the Energy Cost Adjustment (ECA). ECA is a method of billing costs incurred by KCP&L in producing and purchasing electricity to meet customer demand. These costs have been removed from the base energy kWh charge and will be noted as a unique charge on customer bills. The ECA amount is calculated by multiplying the monthly ECA factor by the kWh used during the month. The ECA factors are published quarterly and can be found at www.kcpl.com/about/ratesrules.html.

REGISTER YOUR HEAT PUMP

Whether you are building a new home or replacing equipment in your existing home, you will need to register your heat pump with KCP&L. We'll apply the lower space heat rate to your account upon receipt of your proof of installation. There are two ways to register:

- Ask your dealer to complete the **KCP&L Dealer Heat Pump Notification Form** located on our Web site at www.kcpl.com, or
- Send us a copy of your heat pump invoice. Make sure it includes your name, address, date installed, your dealer's name and address, and the make, model and serial number of your new heat pump. Mail to **KCP&L Billing Services, P.O. Box 418679, Kansas City, MO 64141-9679** or fax to **(816) 654-1391**.

To qualify for KCP&L's eight-month winter space heat rate, the electric heating equipment, such as a heat pump, must be permanently installed and used throughout to heat your home. For more information about heat pumps, our complete rate schedules and other KCP&L energy-efficient residential products, call **(816) 556-2295** or visit www.kcpl.com.
